LABELS FOR EDUCATION AND USED PRINTER CARTRIDGES

I will take the Labels for Education and Used Printer Cartridges to D'Hanis School the end of this month. Please put the ones you have collected into the containers provided for them on the cabinet on the south wall of the Clubhouse. Dave Kampa, former LSC member, had noticed that the Labels for Education were no longer on Campbell soup labels and wrote a letter to them. They responded that participation in this program had declined considerably and they had decided to support American school children through a different program. They will continue to honor labels from schools currently registered with the program. A considerable number of the labels we have collected in the past were from Campbell soups. The labels are found on many other products – General Mills cereal, Pepperidge Farm products, Pop Secret Popcorn. The money the school gets for the Labels is used to buy prizes for top readers and books for the library. The money received for the Used Printer Cartridges is used by the National Honor Society for ceremonies and other projects. Thanks to all who participate in this program.

Patti Hunter, Lot 53

Forgetter Be Forgotten?

My forgetter's getting better, but my rememberer is broke.

To you that may seem funny, but, to me, that is no joke.

For when I'm here, I'm wondering if I really should be 'there'

And, when I try to think it through, I haven't got a prayer!

Of times I walk into a room, Say, "What am I here for?"

I wrack my brain, but all in vain! A zero is my score.

At times I put something away where it is safe, but, gee.

The person it is safest from generally is me!

Yes, my forgetter's getting better while my rememberer is broke,

And it's driving me plumb crazy And that isn't any joke.

THE LIGHTER SIDE

TOOL DEFINITIONS: COURTESY OF JEANIE HOYLE

UTILITY KNIFE: Used to open and slice through the contents of cardboard cartons delivered to your front door. Works particularly well on contents such as seats, vinyl records, liquids in plastic bottles, collector magazines, refund checks, and rubber or plastic parts. Especially useful for slicing work clothes, but only while in use. These can also be used to initiate a trip to the emergency room so a doctor can sew up the damage.
